I'm currently a senior living at Oakmont Transitional Home in Pennsylvania. The school is a truly amazing place and the employees here are amazing in every way. The facility provides high quality care for the seniors of this area which is a combination of the American way of life and the culture of the caregivers. Oakmont is an adult only facility that has a maximum capacity of 26 residents and employs a staff of 24 (dining staff, housekeeping, and security). In the past, my experiences at other facilities have been very traumatic as they've been more like state run or community based facilities. At Oakmont I have enjoyed having the freedom to call almost all of the shots as to how my day was spent, while working at a pace that most have not had a chance to experience. I am most qualified to share my comments based on my experience as a caregiver at Oakmont Transitional Home in Pennsylvania. My goals are to promote the principles of self-determination and self-advocacy in order to inspire the elderly to become involved in their own care. The elderly people of my state deserve to feel like their time is important and that they live their lives as they see fit. Our People The data sets in our library come from a variety of sources and are presented in various formats to meet the requirements of researchers interested in particular topics or potential applications. Download Examples UPCOMING EVENTS This Friday, we will be celebrating the International Day of Older Persons at the European Parliament! Read about the event and contact us if you have any questions or want to share your ideas! In order to raise awareness about our campaign, we have launched a video on... Today, we are pleased to announce that during the World Conference on Disability, at the margins of the World Summit, we will be represented by our Chair and the Executive Director for Europe
