Slappyball is a multiplayer game of slappiness, it's where slapping people just became fun. Slappycoin is the way we measure support for Slappyball. It's an in-game item that rewards you for slapping other players who purchase Slappycoins. These Slappycoins are earned in-game by playing games on the server and earning XP. Slappycoins can be used to play on the server, or they can be used to buy 'premium' items that increase your abilities and make your game feel even better. Premium items include: 50% more XP 50% more slappycoins A custom 'community' voice to communicate with server admins A custom role to act as a server admin Premium servers are allocated specific slots on the servers. This allows your custom server to be hosted anywhere on the server you choose. In order to access premium servers, you must pay the appropriate amount of premium slappycoins to the admins for the server you wish to host on. Other Slappycoins can be exchanged for your desired amount of slappycoins. From there you can exchange slappycoins for a custom player name. This will be visible on your player bar so other players know what a special kind of slappy you are. Premium Servers are: - Networked - 24/7 - Multi player - Allows customization - Allows Slappycoin purchases - Allows feature flagging - Slappycoins cannot be added to your account - Slappycoins bought can be used across all servers but Slappycoins earned cannot be used outside of a server (if you use them on the main server they will be lost) - You must buy premium to host your custom server Premium Servers are NOT supported outside of Slappyball: - If you choose to buy Slappycoins you can no longer play premium - Premium access is not possible outside of Slappyball - Premium Servers can no longer be created and hosted outside of Slappyball - Premium Servers cannot connect to the main Slappyball server - If you use the premium feature flag on the servers it will be removed - Slappycoin bought cannot be used outside of a server (if you use them on the main server they will be lost) --- IF YOU BUY SLAPPYCOINS YOU CANNOT BUY ANY OTHER ITEMS - Slappycoins purchased cannot be used to purchase other items

Stockholm - 23 January 2018 Company: Stena Line Cruising Total diesel price: 7.46 COE: 699 € Ports of call: Stockholm - Jönköping - Malmö - Söderhamn - Malmö Day 1 23.1.2018: Holiday starts Stockholm was our last stop in our last port of call AEsseb. The next day we cruise to Jönköping, a city with about 200.000 inhabitants, with the destination of the family which invited us as guests on board. I have never been there, so I wanted to try out in a city which was about two hours north of the centre of Vienna. Hopefully, everything will be as nice as there seemed to be on Danish films. Stockholm - Fun people The weather forecast was not really correct. We had a good visibility, were allowed to turn around at 20.00 UKT / 2.00 CET before the harbour border and arrived after a hard sail. We were approached by a number of professional cruisers, some of whom arranged a berth for us. Nice to know that people still arrange routes before sailing, even in these days of electronically operated routings. The first impressions after arriving were always nice. Of course you come across people who have a boat and carrier, but one cannot deny the relaxing feeling when you feel the sea breeze in your hair. The Port of Jönköping was not prepared for thousands of cruisers with 1500-2000 ton ships, but it was organized and technically ready for it. The cargo cranes were in operation and dockers were carrying goods into the ship. Of course the view from the town harbour is simply great. Stena Line Cruising - Arriving in Jönköping We were anchored at 10:30 AM, had our first crew training at 1.30 and had our last at 9 PM. Stockholm - The city From what I gather, Jönköping is situated in the middle of lakes and forests where the flora and fauna are spectacular. Stockholm - The city The first impression of the city is always fantastic. Short, but not too long, motorways separate the city centre where we spend our short stay. Of course, the city centre is a shopping haven, with large and mid-sized chain stores. Here are also most of the restaurants and pubs

The Scarlet Nexus is no ordinary shooter. Take a step into a world of high-frequency neon war. Embark on a journey as a NEXUS officer destined to save the human race from its own desperate fate in this frenetic real-time 3rd-person shooter. A gritty squad-based tactical shooter with a withering arsenal of weaponry and maniacal AI enemies, Scarlet Nexus is a fresh, yet polished, take on the genre. You play through an action-packed campaign as a NEXUS officer. All you need is the trusty M4 to get you there. (You can choose a sidearm, if you so wish.) Escape your robotic underclass mechanical foes that are controlled by the powerful AI known as NEXUS. Completely free to explore, dodge and dodge as you go, you'll have to approach every encounter tactically and trigger-smartly to survive. You'll fight across five vast levels, each with their own feel and themes. Reviews A bit on the short side, but full of challenge, addicting gameplay, graphics and music that will keep you glued to it all day long. I'm sure that if you love shoot-em-ups you'll love this game. Full disclosure: I worked as a programmer/ animator for this game's soundtrack composer. So I'm biased, of course. But he really, really nailed it. Superb tunes that help to drive the action in this game. Every song just raises the intensity when you play it. Couldn't recommend this game more for those of you looking for more down-tuned sonic powerhouses. ... I hear people complain about the graphics on this game, but, I myself have no complaints about them. If you grew up with the Crazy Taxi series you will understand what I mean. Great game for the price. It has a nice story, great graphics and is fun to play. The game has a nice story, but there are multiple story choices. I find the game to be an RPG mixed with a game, and as such some of the bad reviews are caused by the fact that the game is not linear and you're able to choose story endings. The game is fun, it's like playing a racing game that never lets you die. It's fun on the nintendo switch as it would be on any other platform. Its great for those who have never played crazy taxi before If
