I was born in the United States but, my parents moved to Whidbey Island, WA. I think my family moved to the States, because my father was going to graduate school. He is an educational psychologist and owns his own company. But before all of that I grew up in the woods of Whidbey Island. And I played in the woods. I was told, no, we moved there for you. So, my family is from Canada and I went to Vancouver Island University. I went to Vancouver, Washington for my junior year. My family moved to Whidbey Island to be closer to my Mom's work. I didn't like the idea of leaving my friend Lexi and she didn't like it either. But as you can probably tell I chose to leave my family to be in the woods. That might sound sad, but it's pretty funny. My family was surprised I had a phone at my age. Lexi thought it was really cool. I used to go to the woods with my friend Jimmy and we would go to his house. His name is Carlos. I used to play with his dog Avery. We call her Ari. I also used to go play with Lexi's brother and her friend. My family bought me a phone. Do you know what kind of phone it was?

Key Features: All environments and missions sound different and unique. They have different themes and moods, just as the Multiverse does. There are three types of music: Colourful battle music and ethereal mission music. Archaic soundscapes. Dramatic, orchestrated action music. Full audio samples are included. Each of these sounds was created in conjunction with the Multiverse, so there are no sound files found anywhere else. Note: If you are using Media Player Classic, you can download all 320kbps MP3 files for free using this tutorial. Note 2: MPC will only download MP3 files of the exact bitrate of 320kbps. If you don't know what that is, feel free to use the automatic converter to convert your MP3 files to 320kbps. The Final Villain: Agent Tenebrous has materialised and he is not happy. **,” “Mogul Talk,” and “The Little Birds” all testify to that. Unfortunately, Netflix is to be commended for trying to own these characters, but it may be a little too late. It’s not enough to tie-in “Game of Thrones” with “The Defenders” if the people tuning in to each aren’t familiar with both franchises. And if Netflix’s insistence on releasing so many original TV series, including those that are bound to disappoint, continues, then it’s possible these renewed launches will never get better. “The Boys” and “Sex Education” “The Boys” (Aug. 16): A smart**

comedy whose wittily masked frankness about modern day gender relations is fun for everyone, it's a Thanksgiving weekend favorite. "Sex Education" (Aug. 22): Margot Robbie and the rest of her cast still look lovely in this comedy, based on the hit Swedish film. "Baskets" (Aug. 30): A comedic look at the world of commercial art, one that uses honest family drama as its foundation. "Alison in the Sunset" (Sept. 6): A funny, tragic story of a widowed chef who has fallen for an emaciated speed shop owner who has just lost her 12-year-old daughter to leukemia. "Trampanion" (Sept. 20): A magical, heartfelt love story about a man who asks a naive young woman to be his companion while he works with a group of unemployed men to help them get jobs. "Revival" (Sept. 27): A comedic drama about a small town minister who auditions for a role on the beloved, groundbreaking ABC comedy series that he would have loved to have starred in had it been alive when he was young. "Magnifica" (Oct. 4): A superb, spellbinding drama that continually gets better as it moves along, the multi-award-winning story of opera diva Giulietta De Bellis, an extraordinary artist who persevered through the rigors of a career-ending illness in order to live out her days with her lover. "The Dogfather" (Oct. 11): A stylish, touching, and beautifully shot look at the power of unconditional

The World of Guildria is a medieval fantasy land filled with magic. The water that fills the rivers, lakes, and seas is

---

**actually used to call up spirits to fight for you. The use of magic in Guildria is unparalleled. Through the use of magic, humans have won the war against those who once ruled this land. Today, the twelve knights that hold the country together from warring factions are known as the Heroes of Good. The corrupt Prince of the Eastern Wasteland has the backing of the sinister Legion. The Legion seeks to conquer the kingdom, and if he succeeds, the country will be plunged into war once again. However, a nation does not remain strong if it does not know how to fight in times of need. The Heroes of Good need to train their soldiers and find new recruits to battle for the country. In order to recruit new fighters, the Heroes must battle in the Arena. When the Arena is full, new fighters are introduced to the country and the population can vote on their strength in the Arena. This process will help re-train the population and strengthen the fighting force of the kingdom. The Heroes of Good must also defeat dangerous beasts that have been brought into the country, such as dragons and others. They accomplish this by having their knights use specialized weapons against these creatures. There are different types of weapons such as Special Swords, Bows, and Magic Arms. Outside the realm, the Heroes must also protect the country from the Legion. They must stop the Legion from conquering the country. In the upcoming Guildria: X 's story, you can fully control your characters by assigning their actions and conditions at any time. The actions of your characters are captured in their chanbara/isometric scenes. Use your chanbara scene to set up your opponent's condition. Then, ask your opponent for an attack or evade. The chanbara**

scenes are displayed in a web browser window, and you can link to other chanbara scenes at will. You can turn your chanbara scene into a battle scene as well. If you see a “?” at the bottom of a battle scene, you can select new actions for your character by selecting the desired fight option. In this way, you can freely control your characters in the game and change your decision-making at any time. There are two types of battle scenes. One is the traditional fight where the stronger of the two characters will win and the other is the comprehensive battle in which you can select
