OK More information In 2007, TrueCafe was founded in Toronto by Dimitrios Angelopoulos and Ellis Yanakmakis. TrueCafe wanted to make accessing and sharing media simple, fast, simple, safe and free from viruses or eavesdroppers. Dimitrios and Ellis worked closely with a number of sound artists and designers to create the TrueCafe interface and the TrueCafe software that is the most widely used image, sound and video hosting platform and platform in the world. TrueCafe provides a free service for image hosting to social networks, blogs, online communities, and individual projects. Image hosting is a free service that allows you to upload and share images. The images can be shared publicly or privately. There are two types of photos in TrueCafe. They are Public and Private. Public photos are shared with everyone, Private photos are only shared with the people who have the password. If you are wondering how TrueCafe will help you, check out the features. TrueCafe Features TrueCafe is simple. Easy to use: No confusing wizards. No need to download plug-ins. All you need is the web browser and the TrueCafe website. We are always looking for feedback on the TrueCafe interface. Please send your feedback via the contact page: We are always looking for feedback on the TrueCafe interface. Please send your feedback via the contact page: Secure: TrueCafe is not a virus or spyware and does not infect your computer. TrueCafe is not a virus or spyware and does not infect your computer.
