You are a girl working at a bar and you have a crush on one of your co-workers. The game will have a lot of dialogues and you can switch to a limited story mode and an open mode. In addition to the story mode, there will be another game mode where you can sleep with any of the girls you meet in the bar. The editor is in development. This game uses popular assets such as a snake charmer (by Ume), a mermaid kiss scene (by Hoshitsuji), and a flute scene (by Soraya). This game was made by me, a 3 year student. Programming languages are mainly Objective-C and C++. Some images were made by just using the free tool from Microsoft Office 'Draw' tool. The whole project took about 3 months to finish. I hope you like this game. Overview You are in a dystopia that is destroyed from plague. You live in a free city where human life is scarce. Mura, a man with an innocent and kind personality, is Angel's close friend. He spends most of his days chasing after Angel, who he wishes to protect and love. He has a sexual appetite at times, so he flirts a lot with the girls in the bar. Summary You are a troubled girl, and an odd blessing who lives in a peaceful, utopian city. As most know, getting to Magi Trials is difficult, but not impossible! Take a look at where you are in the process to see what you need to do to finish Magi Trials! Finish Book 1 of Broodmother Heart! I had no idea what the story was about, so my original plan was to go through it extremely slow and eventually finish it to see if there is more. But I am now loving the story, so have decided to tear through it! Run Book 1 of Avatars! Good thing this is only quest 1! Still a bear for taking 4 books and returning them for book 3, but it is all great so far! Start Book 2 of Avatars! With the end of Book 1 in mind, I started Book 2 with clear goals in mind. Continue the storyline I was building. Finish Book 2 of Avatars! With Book 2 finished, I am going to back track to accept the job at the B&W. Just wanting to get some more skills back at level 1, as well as get my equipment back. Start Book 2 of Book 2 of Avatars! I decided to finish the game through book 1 and 2, as this will give me a better feel for where I am! Finish Book 2 of Book 2 of Avatars! I am wrapping up the game for good, but this is my last book, so you will be able to finish the story as it is put together. Wage War... in War! He had to remember that if you assign a quest too early you will have to alter it and screw up there own progress. Well at least until the game lets you advance through quests, then you might want to stick to that plan! Start Book 3 of Broodmother Heart! For the time being I am going to absorb the story and try to avoid direct combat. Finish Book 3 of Broodmother Heart! I want to absorb her story to get a better feel for the Elders Heart before I go at them! Start Book 3 of Avatars! I wanted to make sure I was able to complete a few quests I had passed on my return to the B&W. These quests are all an absurd amount of XP, but very very cheap to clear. Finish Book 3 of Avatars! I am starting Book 4 of Magi Trials, and it looks like the Achievment Hall quest has us going to the Guilmon.
