An Occult Mystery.. Obscure is a story-driven horror game with an innovative visual and gameplay approach. Saturday, May 4, 2009 When you know you're going to die. It's funny when you live your life and you don't have that fear because you have that sense that it's all going to work out. When you know you're going to die, you begin to realize how important living for yourself is. That's one of the games I've had a lot of fun playing in this last year as a total loner. One of the games that had no voice in the arcade, but what I think was really great was the character arc of one of the characters in the game. One of the cases that I had with that is, when I was playing for the first time, I was playing in a certain character, but within the first ten minutes, I was like wait a minute, this is the guy that kidnapped me. I wasn't sure what to do. I knew I was kind of in a position that was kind of overwhelming for me, but in the same moment, I was like, "Oh, he's got a gun in his mouth. What's going to happen?" And I got to watch the game play and the rest of the game, I got caught up in the game and I didn't have any fear. So it kind of goes to show, if you're going to play an interactive game, the game has to have something dramatic for you to do or for you to experience. Another thing I think that was pretty good about that game was, I played the game at a speed that I thought was right. I think it was fun to play at a certain speed, but I think it was the most fun playing at my own pace, but at the same time, playing the game at a speed that I thought was right for me, rather than trying to force myself to play the game at a faster pace. I think that's very true for a lot of us as adults as well. I think if we really have the time and want to play a game that's interactive, the kind of games that I think I like, that I enjoy the most is the kind that I play at my own pace, at the pace where I'm comfortable with the challenge that I'm facing. And this was a game where I was making a lot of mistakes and I was learning from them. A lot of games that I played that were more

## What's new:

**(Spare Parts)** This is the official soundtrack for the cult mystery-comedy **HOLLYWOOD HANGMAN** by the folks at **NEW WAY HOME**. Released in 2005 on the self titled New Way Home label, it was produced by **ROY WILLIAMS** and co-produced by Dave Nachman of **GANGSTA** and former **EW**-member, Warren Kole. The first **NWH** release, it was also the final album Kole released in his lifetime. Apparently, he liked it so much, he soon started to think about more music for **NWH**. **SPARE PARTS** is a two-disc, fast-paced album, featuring different compositions of a teen angst, interwoven with insightful, intelligent funkiness. The obscure details are also incorporated into the music. From the opening title song, where the oriental vibe and aggression of the rap interweave with alternate keys, slippery basslines and dark synths, to the sex, drug and rock joint-band 'Coptic Rite of Passage', R&B lovers dream come true. The 12-track set is rounded off with 'The Sound of the Land' - (also known as 'The South-East Asian Mix' - as a tribute to the Southeast Asian subculture in New York. It features everything: Turkish percussion and vocals, Arabian strings, reggae, and breakbeats, sounding quite futuristic! The latter part of the title track sticks to classic soul and a bit of edge rock with tight basslines, complex chords and strange - almost "out there"- ad-libs. However, what really brings the LP/CD home is the very end. The album breaks off into three parts which is actually even more epic than the music on the previous 12 tracks. The first part is closing with the sound of a machine-gun shot. The next part takes to the house with a tribal over-dubbed and effects-mixed rap by a Ghanaian MC, which is followed by a number of musicians with instruments and voices, playing African sounds (sweltering). **SPARE PARTS** is a pleasure to the ears. It's definitely the very best of New Way Home's first two albums. The b-side of the first release isn't too bad either. The second album, **BLOOD** is a classic hard funk album with clear and sharp production. No more fancy effects, no matter how your parents want
