### [GTA 3] Grand Theft Auto: III [Full-RiP] [AVeRAnTeD] Pc Game

there are two special vehicles that are only available in this game. one is the helicopter and the other is the jail bus. when using the helicopter, the player can move through the air but he or she can not go too high because of the overhang of the buildings in liberty city. the helicopter can also be used as a stealth vehicle for quick escapes. the jail bus can only be used as a means of escape and it is not so easy to use. all radio stations used in the game are available in the game as a pre-existing radio that is not related to the radio stations that appear in the game. these pre-existing radios are located in the home of franklin, joseph, and michael. the radio station in gta iii is not as in-depth as in gta 2. a few stations which are present in gta iii include 101.1 the edge, 103.5 kiss fm, 107.7 the x, 104.5 the game, 95.7 the beast, 93.7 the beat, and 106.1 the edge. other radio stations that are present in gta iii include 93.9 the beast, 94.7 the edge, 96.7 the game, 103.3 the edge, 94.1 the x, and 93. there are a few more radio stations that are present in gta iii that are not included in this list. the world was designed using the game engine originally used in the gta iii single player game. this meant that most of the world was built using the same ground textures, roads, objects, etc. when liberty city was recreated for gta iv, the designers decided to try and make the city look as realistic as possible. this required the previous texture files to be replaced with textures of a higher quality. this resulted in a different style of billboards, advertisements, and other graphics throughout the game. 5ec8ef588b
