

**The Specified Service Does Not Exist As An
Installed Service, 0x80070424**

So I tried it on my Win7 x64 machine. I found the error code of error code 0x80070424. You will encounter this error if you try to use ANY one of the following functions: W32Time W32TimeDlg W32TimeServices W32TimeSvc W32TimeStartup W32TimeSvcProcess W32TimeStartupProcess In this case, the error code 0x80070424 from the winerror.h file indicates "The specified service does not exist as an installed service". Some people would suggest using the command services.msc but I could not find a detailed description of it. Is there a way to find out what is the real error code behind 0x80070424 or if this is a bug in Windows Update Standalone Installer? A: This error is caused by an improper configuration of the "System Protection" service. I strongly suggest you to re-install "System Protection" service, and, if you really feel the need to activate it, set the following registry key: Enable the System Protection service setting to run on startup (DWORD: 0x2) A: Try this Registry Editor... Start > Run run as an administrator %windir%\system32\sc.exe At the command prompt set UAC=0 and then restart if that works out then (have a look at the answer below by dingo) cmd.exe /c windows\system32\sc.exe config A: I ran into the same problem a few days ago. And then I ran a chkdsk /r on C: and after that I was able to install the update successfully.

Su(Hw) represses pericentrin expression in the grasshopper *Drosophila* wing disc. Su(Hw) is a transcription factor whose loss-of-function mutations cause the loss of eye and wing pigmentation and lethality. Previous work has shown that Su(Hw) also represses the

expression of Abd-A in the abdominal segments of third instar larvae, and that this Su(Hw) activity is essential for Abd-A expression. Here, we report that Su(Hw) expression during the third instar is increased in the wing disc; this increase continues into the

The Specified Service Does Not Exist As An Installed Service, 0x80070424
